TRAILER ID:

TRAILER TYPE:

IMPORTANT! The trip ID (upper left corner) serves as the invoice reference! Please always attach a copy of this transport order to your invoice, if there is no copy attached the invoice will not be paid.

**Sanctions against Russia and Belarus:**

The European Union ("EU") has extended its sanctions against Russia on 24 June 2024 (14th sanctions package) and Belarus on 29 June 2024. All road transport undertakings established in Russia or Belarus or owned by Russian or Belarusian persons, entity or body for 25% or more are prohibited to transport or transit any goods by road within EU territory. If you are subject to an applicable prohibition, you must not provide any transportation services to Scherbauer. Please notify Scherbauer immediately if you are subject to such prohibition.

**EN:**

You will receive a credit note from us after the service has been provided to avoid any delays in payment, we ask you to provide us with your exact address, bank details and, if applicable, VAT registration number. By accepting the freight order, the freight forwarder confirms that it accepts the agreed conditions!

**Special agreements:**

1. The freight forwarder confirms that it may carry out the agreed journey(s) without violating the regulations on drivers' working hours (social regulations). It is also deemed to be confirmed that the freight forwarder has the necessary permits and the drivers employed are in possession of the required work permits
2. The freight forwarder confirms that it has read and understood the Code of Conduct for Suppliers (CoC) of Scherbauer Spedition GmbH, available at [www.scherbauer.de](http://www.scherbauer.de), and undertakes to comply with this CoC as amended. The freight forwarder shall train its employees to ensure that they comply with this CoC.
3. The prerequisite for payment for freight forwarding services is the submission of properly issued receipts (stamp and legible signature, in block letters if required) and, on the route network, a fully completed trip report including pallet slips (NO COPIES/NO FAX) no later than 2 weeks after transportation begins! In the event of later submission, a freight deduction of EUR 30.00 will be made!
4. In line with the agreement, you will receive a credit note immediately after submission according to point 2 and written notification of your tax number or VAT registration number. Any invoice on your part will not be recognised or posted! Please check that your address is accurate and inform us of any discrepancies by fax on 09401 5226 169 to ensure that the credit note is issued properly.
5. A credit note shall be issued immediately after all documents have been received – terms of payment: 45 days after the credit note is issued.
6. The assignment of a receivable by the contractor shall only be effective vis-à-vis the customer if the contractor notifies the customer of said receivable, including all the necessary information (order and creditor number, name, address and account number of the new creditor, amount, effective date of the assignment, etc.), and the customer agrees to the assignment in writing.
7. Pallets: Euro pallets/pallet cages must be exchanged immediately on acceptance of the consignment. You are responsible for accounting for the pallets yourself. The agreed fixed fee for freight forwarding covers the pallet exchange fee. The freight forwarder may return the same number, type and quality of Euro pallets and pallet cages as it accepted to fulfil this order without incurring any freight charges. If transport equipment is not exchanged as per the recipient's express wish, this wish must be documented beyond any doubt and evidence regarding the location of the transport equipment provided. The transport equipment must be returned or the corresponding documentation provided at the latest on submission of the transportation documents. If transport equipment is not directly exchanged, a charge of EUR 16.00 per Euro pallet or EUR 165.00 per pallet cage shall apply if the appropriate evidence is not provided. A EUR 25.00 processing fee shall also be charged.  
For deliveries to BOSCH and supermarkets (e.g. Aldi, Kaufland, Lidl, Netto, etc.), original pallet slips must also be presented if no exchange takes place.
8. Load securing equipment (lashing straps, etc.) is to be provided by the freight forwarder. If load securing equipment is provided by us, we shall calculate the value of the replacement purchase plus a processing fee of EUR 25.00.
9. All transportation on our behalf is subject to all the requirements of the current IFS Logistics Standard (part 2, chapters: 3.1–2, 4.1–3, 5.3–6, 6.3) relevant to transportation. The current IFS Logistics Standard is available at: <https://www.ifs-certification.com> -> Standards -> IFS Logistics
10. Deadlines must be adhered to; if they are not, the follow-up costs will be passed on to you. Downtime is usually included in the price paid for freight forwarding services. If there are any irregularities with respect to the transportation process (in particular if deadlines are missed or there are waiting times at loading and unloading points, etc.), we must be notified immediately! The freight forwarder is required to provide evidence of such irregularities and of its timely response thereto.
11. The freight forwarder is not entitled to use subcontractors or transship goods without the customer's prior consent.
12. Customer protection and neutrality are deemed to have been agreed. In the event of a breach, a charge of at least EUR 10,000.00 per breach will be made without any requirement to provide proof of damage.
13. According to Section 449 (2) (1) of the German Commercial Code (Handelsgesetzbuch, HGB), the compensation to be paid for loss of or damage to goods, by way of derogation from Section 431 (1) and (2) HGB, is up to 40 units of account (special drawing rights of the International Monetary Fund) for each kilogram of gross weight of the consignment, if and to the extent that Scherbauer Spedition GmbH has correspondingly high liability to third parties for which Scherbauer Spedition GmbH can have recourse. Any higher legal liability of the freight forwarder shall be unaffected by the above regulation.

## TRANSPORT CONFIRMATION

SCHERBAUER SPEDITION GMBH

TRAILER ID:

TRAILER TYPE:

14. In cross-border traffic, the liability provisions of the CMR Regulation generally apply. Section 425 et seq. HGB also applies.

15. The contractor shall take out adequate liability insurance, in particular the following insurance:

- a) Motor vehicle liability insurance (sum insured at least €50 million, personal injury at least €3.75 million)
- b) Public liability insurance (sum insured at least €2.5 million [fixed], €25,000 for processing and activity damage)
- c) Material damage liability insurance.

16. If a seal is required, the freight forwarder is required to check and confirm the proper attachment and designation (seal number) of the seal before the journey begins and have the condition of the seal confirmed on delivery.

17. If the vehicle is parked and left, in particular to comply with driving hours and break times and over the weekend, monitored parking spaces or locked company premises should be used if possible. The parked vehicle is to be locked and secured, and the parking location monitored and checked for as long as the vehicle is parked.

18. The freight forwarder confirms that it will observe all foreign trade regulations and does not have connections with persons and organisations on which restrictive measures to combat terrorism or other foreign trade sanctions have been imposed.

19. The contractor ensures that it and subcontractors – to the extent permitted (p. 11) – comply with legal regulations to strengthen free collective bargaining (Free Collective Bargaining Act [Tarifautonomiegesetz]), in particular the obligation to pay minimum wage according to the Act Regulating a Minimum Wage (Mindestlohngesetz - MiLoG). Furthermore, the contractor shall conclude identical or at least analogous agreements with its subcontractors and pay them remuneration at a level that allows them to pay their employees the minimum wage. The service provider shall indemnify Scherbauer Spedition GmbH against all liability according to Section 13 MiLoG.

The above points shall be deemed to have been accepted if we do not receive the corresponding change requests within a maximum of 60 minutes after the order has been placed. Deviating agreements shall only be recognised as legally effective if they have been confirmed and countersigned by us.

### Cabotage:

By accepting this order, the contractor expressly confirms that it will and can carry out transportation services in compliance with the applicable cabotage regulations (in particular EC Regulation No. 1072/2009 and the Regulation on Cross-Border Road Haulage and Cabotage [GüKGGrKabotageV]). It is aware that Scherbauer Spedition GmbH considers compliance with these regulations and the following specifications to be important prerequisites for cooperation. The contractor therefore also undertakes in particular to use any permit, authorisation or licence only in accordance with the statutory provisions.

Furthermore, the contractor warrants that it meets and will meet the cabotage requirements in Article 8 of Regulation (EC) No. 1072/2009 or Section 7 a GüKGGrKabotageV at all times. The contractor is also obliged to pass on these specifications to any subcontractors and to use only subcontractors which also meet these specifications. The contractor shall submit the permits, licences and authorisations required for the provision of transportation services to Scherbauer Spedition GmbH at any time on request. If, however, the contractor or the subcontractors used by it violate the above-mentioned specifications and Scherbauer Spedition GmbH suffers damage as a result, the contractor shall be obliged to pay compensation for the damage incurred.

### Mobility Package:

By accepting this order, the contractor also confirms its compliance with the regulations and requirements resulting from the Mobility Package (in particular Regulation [EU] 2020/1055).
